**CAREER OBJECTIVE**

---

Looking forward to continuing my career as a pharmacist and use my 30 years of experience to improve efficiency and deliver exceptional care. Skilled in overseeing the work of pharmacy technicians and pharmacist interns. Well versed with advising patients about general health topics and counsel them about medications. Serve as a medical team consultant with specialization in intensive care unit and working knowledge of compounding I.V. infusions. Have good communication skills with strong attention to detail and provide professional advice on drug selection, dosage, and side effects of medications. Proficient in using Cerner, Pyxis System and C2 Safe control drug dispensing system.
